We are a Uniting Church day and boarding school, established since 1923. We provide a caring community, underpinned by strong Christian values, within which our students and staff are encouraged to achieve their individual potential. As part of our team, you’ll need to assume responsibility, embrace diversity and new ideas, show commitment to our community and respect yourself and others. Wesley College is organised around three sub-schools.

We currently have two short-term opportunities for enthusiastic and dedicated teachers to join our team of progressive mathematics professionals teaching in our Senior School. The positions are to cover maternity and long service leave absences. The capacity to teach all levels of mathematics across years 9-12 would be highly desirable.

The positions are for different time periods. Please indicate on your covering letter for which position you are interested in applying.

- Full-time Term 3, 2016
- Full-time Semester 2, 2016 (with the possibility of extending to a one year contract)

Our ideal candidate will:
- be a qualified teacher with tertiary qualifications in mathematics, with TRB clearance, and be able to teach in WA;
- have the ability to teach all levels of mathematics across years 9-12;
- be someone who is a collaborative and flexible professional;
- have experience in effectively managing the pastoral needs of students;
- be able to work effectively in a team environment;
- have good technology skills;
- be able to teach mathematics using inquiry processes; and
- have excellent communication and interpersonal skills in interactions with colleagues, parents and students.
All teachers are expected to participate in the pastoral care and co-curricular life of the school.

In addition to a vibrant and caring community as your work environment, we offer attractive employment benefits, including competitive remuneration.

Your application should consist of a covering letter and a current resume, including at least two referees who can comment on your work performance.

For further information and to APPLY ONLINE please visit www.wesley.wa.edu.au. Written applications should be addressed to Mr David Gee, Headmaster and sent to:
