WESLEY COLLEGE
By daring & by doing

FROM THE HEAD OF COLLEGE

Building on the foundations laid in our Centenary year, we are continuing our journey to enhance our academic and co-curricular programs, foster wellbeing and a sense of belonging for all, and equip our students for an ever-evolving world.

The latest iteration of our Strategic Plan is more than just a document; it's a dynamic roadmap that reflects our commitment to progress and innovation. At its core, the College motto reminds us of our proud heritage while inspiring us to seek excellence as we look to the future.

This plan is a result of a collaborative effort driven by our shared values of compassion, courage, integrity and respect. We remain dedicated to helping every student reach their full potential, through our commitment to a quality, holistic education - one that empowers students to take control of their futures.

I want to thank the many students, parents, staff, alumni, Uniting Church and Council members whose contributions have shaped our future. Together, we are continuing the proud Wesley College tradition of *by daring and by doing*,
